

ON LAND

BEACH TOURS

**Why only take the normal water tours,
when you can take a unique land tour
of our emerald coast?**

THE HISTORY

Newport Coast Tours began as an idea by Captain "Mark-O" O'Ravitz in 2019 from driving people from Orange County California beach resorts to the airports. It seems those visitors wanted more than the already offered whale and dolphin watching experiences. Mark researched the market and realized no one was offering such a service. In 2020 the service was launched and quickly became Orange County, California beach's "Original and Premier" Tour.
